We take action for the environment

A close-up photograph of a silver Fiskars knife being washed in a clear glass dish filled with water. The water is splashing, creating numerous bubbles and ripples. The knife's blade is the central focus, with the handle extending downwards. The lighting is dramatic, highlighting the metallic sheen of the knife and the clarity of the water.

fiskars.com/sustainability

Doing what we love brings us happiness. To really enjoy the activities we love, and make a positive impact beyond our homes, Fiskars takes action for the environment. Every product detail is designed for the best of the user and the environment, increasing sustainability and overall happiness.

The Fiskars story began over 370 years ago.

1649

Fiskars ironworks founded in Fiskars village

1832

Production focuses on processing iron, and Finland's first cutlery mill is founded, with a product range expanding from knives to include forks and scissors

1883

Fiskars becomes a limited company

1929

Fiskars transforms to accommodate mass production

1956

Fiskars hones its expertise in cookware

All Fiskars cookware is manufactured at our own factory in Central Finland, in the village of Sorsakoski. The factory has been inseparable part of Sorsakoski and whole Leppävirta area since 1891, serving first as Hackman and later as Fiskars factory. Made from high-quality materials, our cookware is durable and timeless – perfectly combining innovation and Nordic craftsmanship.

Technologies & materials explained

Fiskars cookware materials

Stainless steel

Stainless steel is an outstanding cookware material that's suited to all kind of cooking. Due to its natural properties, stainless steel is extremely durable, hygienic and easy to care for. Stainless steel has a naturally attractive appearance and, by default, sustains very high temperatures. All Fiskars stainless steel cookware includes an Aluminium layer for improved heat conductivity, and it enhances product performance. All Fiskars cookware products work on any hob, including induction hobs. Fiskars stainless steel cookware product lines are **All Steel**, **Norden Steel**, **Hard Face Steel** and **Functional Form Casseroles**.

Aluminium

Aluminium has very good thermal conductivity, thus it guarantees naturally equal heat distribution to base and sides of the cookware, speeding up food preparation and saving energy. Aluminium is light to handle and excellent for everyday cooking. All Fiskars cookware products work on all hobs, including induction hobs, thanks to a special treatment of Aluminium. Fiskars Aluminium cookware product lines are **Functional Form Frying pans**, **Hard Face** and **Taiten**.

Cast iron

Cast iron performs best for long and gentle simmering of soups and stews, oven-baking, and also for extreme, high-temperature frying of steaks and such due to its superior heat capacity. Cast iron cookware performs better with age due to natural seasoning it accumulates during use. Cast iron is not suited for the dishwasher, and it should be exclusively hand-washed. Fiskars cast iron cookware product line is **Norden Cast iron**.

Technologies in our products

Technology	Energy Base	OPTIHEAT™	3-layer base	3-ply technology	LZR-EDGE™
Icon					
Description	<p>Energy Base performs well on all hobs, but the ultimate benefits are evident with a ceramic hob, where Energy Base heats up to 50% faster and uses 30% less energy by transferring heat easily.</p> <p>Used in all Fiskars Aluminium cookware products.</p>	<p>OPTIHEAT™ technology protects the cookware coating from overheating on an induction hob. When the temperature of the pan exceeds 230°C, the material demagnetises until the temperature drops. OPTIHEAT™ technology activates only on an induction hob but is usable on all other hobs too, just without the demagnetising properties.</p>	<p>High-quality impact bonded 3-layer base is optimised for efficient and even heating in cookware products. The layers are formed with a thick Aluminium core between high-quality stainless steel layers.</p> <p>Used in all Fiskars stainless steel cookware products (excluding Norden Steel that is manufactured with multi-ply technology).</p>	<p>Cookware made with multi-ply technology has a stainless steel exterior and interior with an aluminium core between the steel layers. The aluminium layer is fully covered, making the product very long-lasting by preventing damage, while also providing a premium look.</p> <p>Works well on induction hobs. Heat also transfers well to the sides, making the item optimal for simmering.</p>	<p>LZR-EDGE™ technology is used in select Fiskars knives to give the knife long-lasting sharpness with the most perfect cutting angle. Sharpness lasts 4 times longer than a regular knife.</p>
Product lines	Taiten, Hard Face, Functional Form	Taiten OPTIHEAT™	All Steel, Hard Face Steel, Functional Form casseroles	Norden Steel	Hard Edge, Taiten
Ideal for	Ceramic hob, but suitable for all	Induction hob, but suitable for all	Performs well on all hobs	Performs well on all hobs	Long-lasting sharpness

Coatings explained

Cookware, especially frying pans, are usually coated to improve non-stick properties. The non-stick properties prevent food from sticking on the surface of the cookware and make it easy to clean. Aluminium products are always coated, steel is only coated when non-stick is desired.

There are differences in the qualities and properties of the coatings. Fiskars PTFE coatings are 2-4 layers, while the 4-layer coating is the most durable and scratch resistant. The thickness and number of layers corresponds to the durability and performance of the cookware. Long-term properties are ultimately relative to the quality and processing of the coating. All Fiskars coatings are PFOA & PFOS free.

Even though coatings withstand high temperatures, the plastic blendings (PTFEs) might turn more sensitive on a very hot pan over 240°C. Our ceramic-based, non-plastic coating Ceratec™ and surface

treatment Thermium™ are more heat-resistant and fare well on hot temperatures and with hard use.

All PTFE-coated pans will eventually cycle out due to coating wearing or scratching off, and the cookware should then be disposed of. Our Thermium™ - and Ceratec™-treated stainless steel products can, however, be used like any other uncoated stainless steel cookware, even though non-stick properties will decrease over time. The consumer is left with a product that has all the desirable properties of stainless steel. The same applies to Thermium™ - coated enameled cast iron cookware.

Wooden, silicone, plastic and other non-scratching material utensils are highly recommended to maintain the coating surface in good condition and to lengthen the coated cookware lifespan.

FISKARS COOKWARE LIFECYCLE

1 New Fiskars cookware is purchased from a store or fiskars.com.

2 Old cookware is returned to recycling center or station when coating has worn off.

3 Old cookware at recycling points and factory's surplus materials are collected and processed into recycled materials that end up back in the cycle for re-use.

4 The recycled material is processed into new material components.

5 High-quality Fiskars cookware is manufactured at historical Sorsakoski factory, in the middle of Finland, with modern and sustainable techniques.

Overall, the recycling rate for our cookware items is very high. On average, we use high-quality **90% recycled stainless steel** and **100% recycled aluminium** with our cookware products.*

We are very proud of the high percentages and aim to follow this **development** with other product lines.

*Excluding Norden Steel.

90% recycled stainless steel & 100% recycled aluminium

Lasting Nordic design that makes **every moment** of cooking more **joyful**

Through enduring quality and purposeful Nordic design, Fiskars premium kitchenware **increase the joy** of every moment in the cooking process and bring greater **harmony** to kitchens around the world.

Fiskars' lasting and **purposeful** Nordic **design** caters to all kitchens and brings ease and enjoyment into the everyday. With Fiskars' broad range of premium cookware, knives and kitchen tools, cooking is a form of joyful self-expression and a way to connect with one another. It's not just food we share. It's **happiness**.

Fiskars Premium

"Cooking for me is a way to express my creativity and get inspired. I love to find new culinary experiences. High-quality tools enable me to enjoy the cooking process and to achieve the best cooking results."

Lars, 46

director during the day,
culinarian in his free-time

Norden

Lasting Nordic design,
inspired by nature

A black cast iron pot sits on a charcoal grill. The pot is filled with a mixture of fresh green herbs, including dill and fennel, and sliced onions. A wooden spoon is resting in the pot. The grill is made of metal bars, and the charcoal is visible underneath. In the top left corner, there is a small inset image showing a whole onion and some green herbs.

Norden draws inspiration from Nordic nature, culture and traditions and then reinterprets them in a modern way. The range captures the Nordic way of living; progressive, yet strongly rooted in heritage. The range consists of cast iron and stainless steel cookware, premium kitchen knives, and outdoor cooking collection.

Grill Chef pot					Art. no. 1066430	EAN 6 4 2 4 0 0 2 0 1 6 3 1 1
Height: 13,1 cm	Length: 33,2 cm	Width: 34 cm	Weight: 5,86 kg	Retail box: 1	Old art. no. -	

- Durable cast iron pot is ideal for a wide variety of cooking styles on the grill and indoors and for easy mixing
- Thermium™ mineral treatment makes inner surface very easy to clean and care for
- Premium stainless steel lid
- Part of the stackable Norden Grill Chef system
- Suitable for induction, ceramic, gas and traditional hobs. Also for open fire and different grills

Grill Chef Steel basket/steamer					Art. no. 1066431	EAN 6 4 2 4 0 0 2 0 1 6 3 2 8
Height: 8,1 cm	Length: 32 cm	Width: 32,2 cm	Weight: 1,05 kg	Retail box: 1	Old art. no. -	

- For multi-function cooking: use it as a grill basket for preparing delicate ingredients, as a steamer or as a colander
- Premium stainless steel for lasting durability
- Use it with the Norden Grill Chef Pot for 1- or 2-layer steaming on your barbeque grill or indoor kitchen
- Part of the stackable Norden Grill Chef system

Grill Chef cooking plate					Art. no. 1066432	EAN 6 4 2 4 0 0 2 0 1 6 3 3 5
Height: 4,3 cm	Length: 32,2 cm	Width: 32,2 cm	Weight: 2,64 kg	Retail box: 1	Old art. no. -	

- Durable cast iron plate is ideal for cooking pancakes, fish or vegetables on the grill or over open flame
- Two layers of enamel and unique Thermium™ mineral treatment makes cooking surface very easy to clean and care for
- Bottom legs provide stability while cooking and serving
- Part of the stackable Norden Grill Chef system
- Suitable for open fire and different grills

Grill Chef spatula					Art. no. 1066425	EAN 6 4 2 4 0 0 2 0 1 6 2 6 7
Height: 3 cm	Length: 44,4 cm	Width: 8,6 cm	Weight: 0,39 kg	Retail box: 1	Old art. no. -	

- Solid, premium stainless steel head is thinly shaped to easily flip food
- Serrated edge cuts ingredients
- Convenient loop for hanging when not in use
- Handle made of high-quality, heat-treated birch

Grill Chef tongs					Art. no. 1066426	EAN 6 4 2 4 0 0 2 0 1 6 2 7 4
Height: 3 cm	Length: 44,4 cm	Width: 8,6 cm	Weight: 0,38 kg	Retail box: 1	Old art. no. -	

- Solid, premium stainless steel tongs have a non-twisting joint for precision
- Serration enables good grip
- Convenient loop for hanging when not in use
- Handle made of high-quality, heat-treated birch

Grill Chef fork					Art. no. 1066427	 EAN 6 4 2 4 0 0 2 0 1 6 2 8 1
Height: 2,9 cm	Length: 45,2 cm	Width: 8,7 cm	Weight: 0,31 kg	Retail box: 1	Old art. no. -	

- Solid, premium stainless steel fork easily grabs large ingredients
- Convenient loop for hanging when not in use
- Handle made of high-quality, heat-treated birch

Grill Chef spoon wooden					Art. no. 1066428	 EAN 6 4 2 4 0 0 2 0 1 6 2 9 8
Height: 2,5 cm	Length: 43,2 cm	Width: 7,7 cm	Weight: 0,13 kg	Retail box: 4	Old art. no. -	

- A beautiful piece for grilling, cooking and serving
- Made of solid, high-quality oak
- Natural variation in wood colour and grain makes each product unique
- Perfectly balanced design
- Safe for use with non-stick cookware

Grill Chef spatula wooden					Art. no. 1066429	 EAN 6 4 2 4 0 0 2 0 1 6 3 0 4

Grater coarse					Art. no. 1065244	EAN  6 4 2 4 0 0 2 0 1 5 3 4 5
Height: 2,9 cm	Length: 34,5 cm	Width: 7,3 cm	Weight: 0,28 kg	Retail box: 4	Old art. no. -	

- Premium stainless steel provides smooth grating
- Ideal for coarsely grating a variety of ingredients including carrots, soft cheese, ginger and more
- Handle made of high-quality, heat-treated birch
- Rubber leg prevents sliding
- Designed for optimal balance and comfort during use

Grater fine					Art. no. 1065245	EAN  6 4 2 4 0 0 2 0 1 5 3 5 2
Height: 2,9 cm	Length: 34,5 cm	Width: 7,3 cm	Weight: 0,28 kg	Retail box: 4	Old art. no. -	

- Premium stainless steel provides smooth grating
- Ideal for finely grating a variety of ingredients including citrus fruit, spices, garlic, chocolate, hard cheeses and more
- Handle made of high-quality, heat-treated birch
- Rubber leg prevents sliding
- Designed for optimal balance and comfort during use

Y-peeler					Art. no. 1065246	EAN  6 4 2 4 0 0 2 0 1 5 3 6 9
Height: 2,9 cm	Length: 20,7 cm	Width: 7,4 cm	Weight: 0,11 kg	Retail box: 4	Old art. no. -	

- Premium stainless steel blade for smooth peeling
- Swivel blade adapts perfectly to the shape of the food
- Ideal for a variety of peeling tasks, especially for long vegetables such as cucumbers and carrots
- Handle made of high-quality, heat-treated birch

Fixed peeler					Art. no. 1065247	EAN  6 4 2 4 0 0 2 0 1 5 3 7 6
Height: 2,9 cm	Length: 20,7 cm	Width: 7,4 cm	Weight: 0,06 kg	Retail box: 4	Old art. no. -	

- Premium stainless steel blade for smooth peeling
- Ideal for a variety of peeling tasks, especially for long or round fruits and vegetables like asparagus, potatoes and apples
- Handle made of high-quality, heat-treated birch

Cheese slicer, hard cheese					Art. no. 1065248	EAN  6 4 2 4 0 0 2 0 1 5 3 8 3
Height: 2,9 cm	Length: 23,4 cm	Width: 7,9 cm	Weight: 0,08 kg	Retail box: 4	Old art. no. -	

- Premium stainless steel blade for smooth slicing
- Thin sliding blade guarantees perfect slices
- Ideal for evenly slicing hard cheeses, such as gouda
- Handle made of high-quality, heat-treated birch

Fish spike					Art. no. 1065249	EAN 6 424002 015390
Height: 3 cm	Length: 25,3 cm	Width: 7,4 cm	Weight: 0,15 kg	Retail box: 4	Old art. no. -	

- Premium stainless steel spike for ultimate performance
- Securely grips fish while filleting or preparing
- Handle made of high-quality, heat-treated birch
- Pairs with Norden filleting knife

Carving fork					Art. no. 1065250	EAN 6 424002 015406

- Natural variation in wood colour and grain makes each product unique
- Perfectly balanced design, with edges for easy lifting
- Pairs with Norden Cutting Board Large

Cutting board large

Height: 3,1 cm	Length: 36 cm	Width: 25,5 cm	Weight: 1,81 kg	Retail box: 2	Art. no. 1065712	 EAN 6 424002 016007
					Old art. no. -	

- Beautiful board for cutting and serving
- Made of high-quality oak
- Integrated cup for minced herbs or for serving small ingredients
- Cup hole also accommodates Norden Roll-Sharp Knife sharpener
- Natural variation in wood colour and grain makes each product unique
- Pairs with Norden Cutting Board Large

Norden cast iron features & benefits

1 Perfect slow-cooking

Cast iron stores heat evenly and stays warm longer making the casseroles ideal for traditional slow cooking and simmering.

2 Unique mineral treatment

The unique **THERMIUM™** mineral treatment gives superior natural non-stick properties even in very high temperatures. The treatment is applied to Norden cast iron casseroles and frying pans.

3 Non-stick surface

The non-stick surface allows for frying even the most delicate ingredients.

4 Easy to maintain

No surface seasoning needed - easy to maintain.

5 Wooden trivet

Wooden trivet made of Finnish birch.

6 Wooden handle

The wooden handle is made of Finnish birch. It can be removed when placing the frying pan in an oven.

Taiten

Exceptional control for
moments of creation

Creation is like life shrunk into one process. It's not about what waits in the end: it's the small victories during your journey. For you to be in control of every step of the way, we have created Fiskars Taiten. So you can turn the spark of an idea into something tangible and beautiful using your own hands, skills, aesthetic, and vision.

As you are immersed at the moment with Taiten, there are no obstacles, only opportunities. Your breathing is steady. Your movements are fluid; your flow is unbreakable.

With Taiten, you have the creative freedom to enjoy small victories on the way.

Taiten

Taiten features & benefits

1 Even heating

Made of 100% recycled, high-quality aluminium, which conducts heat extremely well, heating food not only from the bottom, but also the pan's sides.

2 Safe handle

Stainless steel handle is safe and ovenproof.

3 Superior coating

Hardtec Superior+™ coating is ultra-durable and guarantees excellent non-stick and easy-to-clean properties.

4 Energy saving base

The energy base heats up 50% faster on ceramic hobs and saves 30% energy.

5 Works on all hobs.

With frying pans and sauté pan, revolutionary **OPTIHEAT™** technology prevents the pan from overheating on induction hobs, making it an innovative choice for modern kitchens. Taiten cookware works with all hobs.

6 Made in Finland.

Taiten cookware is made in Sorsakoski factory in central Finland.

Taiten knives features & benefits

1 Innovative materials

Extremely light titanium blade enables extreme precision and ease of use and offers ultimate corrosion resistance.

2 Revolutionary LZR-EDGE™ technology

Titanium carbide particles are lasered onto the cutting edge, keeping the knife sharp up to 4x longer than standard knives.

3 Distinctive design

Modern design language perfectly combines ergonomics, style and excellent balance. Stainless steel bolster and end cap for balance and uniqueness.

4 Ergonomic handle

Ergonomic, three dimensionally patterned handle for perfect grip.

EAN

- All-In premium knife sharpener set is suitable for titanium or stainless steel knives with a straight blade.
- The set includes
 - a whetstone with two grits 1000/5000
 - a sharpening angle guide (26°)
 - a polishing leather and
 - a storage case

To sharpen your knife, follow these steps:

1 Soak

Start by soaking the whetstone in water for 5-10 minutes. Water will act as lubrication when you sharpen the knife.

2 Grey coarse grit

After soaking the whetstone place it in the non-slip holder with the grey/coarse grit (1000) facing upwards.

3 Knife in angle guide

When using the sharpening angle guide, the easiest way to start is by placing the angle guide close to the handle and tighten the orange knob.

4 Start sharpening

Hold the knife and angle guide so that the blade meets the stone. The angle guide is supposed to softly touch the stone together with the blade. Push back and forth across the stone with smooth and steady strokes.

5 Sharpen remaining parts

Move the angle guide closer to the tip of the knife to sharpen the remaining parts of the blade.

6 Turn the knife

After one side is done, turn the knife and repeat with the other side of the blade.

7 White smooth grit

Now it's time to turn the whetstone to finalise the sharpening, with the white/smooth grit (5000) facing upwards. Sharpen the whole length of the blade using the angle guide and repeat for both sides of the blade.

8 Rinse

You're almost done here. Now remove the angle guide from the blade and rinse both the knife and the whetstone under running water and dry both with a cloth. Be careful, your knife is now super sharp!

9 Polishing leather

Add a final touch by polishing the blade with the provided polishing leather. Place the leather on top of the stone with the rough side up and stroke the knife carefully along the leather 3-5 times on both sides (see image).

10 Maintenance

Congrats, now you're done! For more information on maintaining your knives, please visit www.fiskars.com

All Steel pure
Uncoated stainless steel
cookware that lasts

Pure is a new uniquely sustainable* and very durable choice for the quality-conscious consumer.

With superbly functional and long-lasting designs and visually pleasing aesthetics, Pure offers you the next generation uncoated, exceptionally durable cookware that combines sustainability and carefree performance.

Fiskars pure uncoated pans can be used at high temperatures and put in the oven. They are ideal for browning. However, to avoid burning and food sticking, it is important to adjust the temperature gradually. Uncoated stainless steel pans can brown at lower temperatures vs. coated pans. They are extremely durable and almost eternally everlasting due to the uncoated surface.

***Made of 90% recycled materials, easy to recycle & no plastics.**

All Steel

All Steel pure features & benefits

Features & benefits

1 Durability

Made of durable stainless steel.
Can also be used with metal utensils.

2 Safe handle

Stainless steel handle is
safe and ovenproof.

3 Unique engraved pattern

The engraved pattern is meant for even
spreading of cooking oils.

4 3-layer base

The thick 3-layer base is optimised for
efficient and even heating.

5 Rolled edge

Re-inforced rolled edge, for better
durability.

6 Sustainable grinding

Matte inner surface made by water
stone grinding technique.

Did you know?

Uncoated stainless steel pure pans brown at lower temperatures vs. coated pans. That's why it's very important to adjust and lower frying temperatures to avoid food burning and sticking. Try yourself and find the optimal temperature for your pure cooking moment!

All Steel

Durable performance
for sustainable kitchens

How we cook today shapes how we'll live tomorrow.

We thoughtfully select and store fresh, sustainable ingredients. We carefully craft recipes that nourish ourselves and loved ones, using only what we need and enjoying every bite of what we use. We do this to create a healthy future for ourselves, our families, our communities and our planet.

Fiskars All Steel allows us to make more mindful choices when equipping the kitchen as well. We prepare meals with pans, knives and utensils that reflect our commitment to the health and wellbeing of people and the environment.

**Consciously crafted, exceptionally long lasting.
All Steel, made for life.**

Hard Face

Toughest non-stick
cookware for
everyday cooking

Hard Face is for tough use. The next generation Hardtec Superior+™ 4-layer PTFE coating has outstanding non-stick properties together with high abrasion and scratch resistance. The fourth layer in the coating also brings additional texture to the surface. The silent silicon lids have built-in pouring functionality. The wide Hard Face assortment is recommended for the toughest everyday cooking duties.

Hard Face

Hard Face features & benefits

1 Superior coating

The next generation of our PFOA and PFOS-free Hardtec Superior+™ coating is even more durable and scratch resistant, for tough use.

2 Superior base

The energy base is optimised for 50% faster heating and saves 30% energy on ceramic hobs. The thickness of the base allows heat to distribute efficiently and evenly.

3 Safe handle

Comfortable handle stays cool and ensures a good grip.

4 Flat glass lid with 2 pouring options

Lid has silent and durable, heat-resistant silicone edges to support easy handling.

5 Works on all hobs

6 Made in Finland

All Hard Face products are made in Sorsakoski factory in central Finland.

A close-up photograph of a person's hands using a knife on a wooden cutting board. The person is wearing a brown, textured button-down shirt. The cutting board is on a dark wooden surface, and there are some green vegetable scraps on it. In the bottom foreground, a pair of orange-handled scissors is partially visible. The lighting is warm and focused on the hands and the cutting action.

Hard Edge

Sharp and tough durability for everyday use

Fiskars Hard Edge knives are designed to ensure that they stay sharp and can comfortably handle everyday cooking needs.

The knife blades are made of thick stainless steel with the revolutionary LZR-EDGE™ technology on the cutting edge. This allows the knife to stay sharp 4 times longer than standard knives. The knife handles also feature an ergonomic design with a unique 3D pattern to ensure the perfect grip.

Hard Edge features & benefits

Hard Edge knives are designed to ensure longer lasting sharpness for all occasions.

1 Revolutionary LZR-EDGE™ Technology

The hero part of the Hard Edge knife is the blade and edge. The edge has been refined using LZR-EDGE™ technology giving the knife long lasting sharpness, lasting 4 times longer.

2 Thick stainless steel blade

The knives have thick cut stainless steel blades for durability.

3 Comfortable grip

A Softouch™ and three dimensionally patterned handle for a comfortable and safe grip.

4 Easy to maintain

The knife is easy to maintain, when needed, it is easy to re-sharpen: any sharpening tool can be used. The knife is also dishwasher safe.

Dishwasher safe

- The knife handles also feature an ergonomic design with a unique 3D pattern to ensure the perfect grip.

The cauliflower is a member of the Brassicaceae family, which also includes broccoli, Brussels sprouts, and cabbage. It is a cruciferous vegetable, meaning it has a central stalk from which the florets grow. Cauliflower is a versatile ingredient that can be used in a variety of dishes, from soups and stews to roasted and steamed. It is also a good source of fiber and antioxidants.

How to Choose Cauliflower
 Look for a head of cauliflower that is firm and has a uniform color. The florets should be tightly packed and the stalk should be short and thick. Avoid heads that are soft or have a yellowish tint.

How to Store Cauliflower
 Store cauliflower in a plastic bag in the refrigerator. It will last for up to a week.

How to Prepare Cauliflower
 Wash the cauliflower thoroughly under running water. Cut it into florets and remove the stalk.

Cauliflower is a healthy and delicious vegetable that is easy to incorporate into your diet. It is a great source of fiber and antioxidants, and it can be used in a variety of dishes.

Norr

Wooden handle for
classic cutting

Fiskars Norr knives provide the authentic cutting experience for those who have a passion for genuine cooking. This timeless Nordic design piece is made of carefully selected premium materials for perfect handling.

Norr knives features & benefits

Beautiful Nordic design and high-quality, environmentally sustainable materials.

1 High-quality blade

High-quality blade is made of hardened German steel for optimum hardness, HRC 54.

2 Comfortable design

Inspired by traditional Nordic cuisine and culture. Very comfortable to hold, and perfectly balanced. Designed by Jacob Leth-Espensen.

3 Durable handle

The handle is made from Kebony treated maple wood. Sustainable FSC®-certified maple. Kebony treatment for increased durability - 40% harder than teak.

The mark of responsible forestry

Classic scissors

Since 1967

The iconic design classic, with superior quality
and performance, for all cutting needs.
Made with premium materials.

The icon

The iconic Classic scissors are a symbol of Fiskars and our Finnish design heritage

Features & benefits

1 Sharp blades

Specially developed blade grind ensures blades stay sharp longer while providing high-precision cuts.

2 Easy cleaning

Handles are injection-molded onto the blades, ensuring easy, hygienic cleaning.

3 Supreme ergonomics

Handles are designed with strong consideration of the natural movement of the hand, resulting in enhanced comfort and cutting control.

4 Best materials

Made of the best quality materials, Classic scissors offer outstanding comfort, performance and durability.

5 Quality control

Each product is manually tested before leaving the factory, ensuring you get only the best scissors.

Fiskars X littala

Fiskars X Iittala scissors features & benefits

This Fiskars X Iittala collection unites two iconic design brands that celebrate the unexpected joys of everyday life. It is with honour that we bring the bold, joyful patterns of Finnish artist and designer Oiva Toikka's sketch book to life.

Features & benefits

1 Made in Finland, tested by hand

Made in Billnäs, Finland, based on an over 365-year tradition of craftsmanship. Scissors are hand-tested at the factory, ensuring premium, long-lasting quality.

2 Oiva Toikka's patterns come to life on the handles

- 3 different pattern designs
- Handles are ergonomic and comfortable
- For right-handed

3 Concept blade stamp

4 Sharp blades

High quality stainless steel blades are durable and long-lasting, HRC 57.

5 Screw enables adjusting blade tension

Screw keeps the blades steadily together.

“ I’m not looking for perfection. I want it to be fun.”

ReNew scissors

These Fiskars scissors are skillfully crafted from recycled and renewable materials at our factory in Billnäs, Finland. The scissors handles are made from an innovative biocomposite material consisting of 66% recycled post-consumer plastic and 34% renewable cellulose fiber, a sustainable alternative to fossil-based materials. The blades themselves are also made of recycled stainless steel.

In addition to being made of recycled and renewable materials, these scissors, like all Fiskars products, are designed to be of highest quality and to offer long-lasting performance.

ReNew

– a sustainable choice for all cutting needs in creating, cooking and gardening

Features & benefits

1 Made of recycled and renewable materials

Total scissors are made of 80% recycled materials and 13% renewable materials. Scissors are 100% recyclable. Scissors packaging is made of 100% recycled and recyclable paper fiber.

2 Sharp blades

Durable stainless steel blades are made of 85-95% recycled stainless steel.

3 Ergonomic design

Comfortable handles are made of 66% recycled plastic (post consumer package waste) and 34% natural cellulose fiber.

4 Made in Finland

These scissors are made using an eco-friendly process in our environment-, quality- and safety-certified scissors factory in Billnäs, Finland.

5 Tested by hand

Scissors are tested by hand at the factory. Only our very best scissors are ever cleared to leave the factory.

Edge knives

Modern all-around knife with non-stick properties

Fiskars Edge knives have a sleek, modern design and innovative features. The specialised coating does much more than just gives the knife an attractive black finish – it makes it easier to maintain.

Edge knives features & benefits

Durability for easy cutting, easy cleaning and storing.

1 Strong and thick blade for better cutting

High-quality Japanese standard stainless steel and taper grinding ensure sharpness of blade.

2 Ergonomic design

Enables all grips and left/right handed use.

Handle enables user to hold knife close to blade.

3 Durable and easy to clean blade

Protective non-stick PTFE-coating prevents corrosion and food from sticking to the blade.

4 Durable handle

Durable and impact resistant ABS plastic handle is easy to keep clean.

Knives

The proper knife can make all the difference when it comes to preparing your ingredients. Not only is it essential to choose the correct style of knives for the dish and tasks at hand, you'll also need to consider which features — including comfort, aesthetics, longevity and more — make a knife or kitchen knife set ideal for you and your kitchen. Fiskars knows the importance of equipping your kitchen with the right tools, and we offer not only an inclusive, thoughtful assortment of knife styles, but also ranges that fit all of your must-haves and suit your personal preferences.

MAINTENANCE

The better a Fiskars knife is looked after, the longer the intervals, before it needs sharpening. However, it is perfectly normal for a knife to need sharpening every once in a while to maintain a perfect cutting edge. A knife stays sharp longer if you make sure to always cut on a suitable surface such as a chopping board made of wood or plastic. You should never use the knife directly on hard kitchen surfaces as this will blunt the edge.

Professional chefs use a sharpening tool each time when using a knife, to make sure it is sharp and ready for use. In normal domestic kitchens, it is not necessary to sharpen your knives as often. It is enough to either sharpen them at regular intervals or simply when they need it. Fiskars knives made of steel, have a hardness of between HRC 52 and HRC 58, which makes them ideal for everyday household use. Sharpening also made easy, using either a Fiskars Roll-Sharp™, a Fiskars sharpening steel or a Fiskars Whetstone.

Using a Fiskars Roll-Sharp™ for getting the job done quickly and easily. The Roll-Sharp™ should be placed on a flat surface, and the blade of the knife pushed backwards and forwards through it, 15-20 times. This makes sure the sharpening takes place at exactly the right angle. It is important that you move the knife backwards as well as forwards to make sure it gets sharpened on both sides. Using a sharpening steel or a whetstone requires some skill. The total sharpening angle of the knife is determining in which degree angle the sharpening should be done. With a sharpening steel the knife should be passed down the sharpening steel at the optimal angle each way,

and repeated on the other side. Use long, even strokes. The Fiskars® Whetstone Knife Sharpener includes all equipment that is needed for sharpening a knife. This extremely effective knife sharpener is suitable for use on all Fiskars® knives, including Titanium knives, which can only be sharpened with a sharpening stone. The package contains detailed instructions for safe, comfortable at-home knife sharpening. Irrespective of which method you prefer to use to keep your Fiskars knives sharp, you should rinse off the knife using hot water and dry it once you are finished.

CLEANING

Most Fiskars knives can be washed in the the dishwasher. Norden, Titanium, Norr & All Steel knives should be washed by hand. When washing your knives by hand, rinse and dry them off straight after washing. Fiskars knives must not be left to soak. It is also important not to allow food remains to dry on the surface of the knife, because acids present in the food residue will damage the knife in the long run. If you do put Fiskars knives in the dishwasher, it is a good idea to make sure they do not come into contact with other utensils, dishes or cutlery, because this will cause damage to the cutting edge.

Small amounts of rust are sometimes present in dishwashers of all kinds, and these can spread around while the dishwasher is running. These rust spots can stem from the inside of the dishwasher itself, or from other items being washed. They may also have been left behind by previous washes. If you prefer to wash your Fiskars knives in the dishwasher, open the door to let the steam escape. It is also a good idea to dry off the knives with a dry cloth once the dishwasher cycle is complete. If rust spots do appear on your knives you can remove them by using a regular steel cleaning product.

STORING

Most knives quickly become blunt, if they are just placed in a drawer, because the cutting edge gets damaged by movement and contact with other items. To keep Fiskars knives sharp, they should either be placed in a knife block or on a magnetic wall rack.

Scissors

The handles of all Fiskars scissors are injection-moulded directly onto the blades. This makes them as hygienic as possible, because there are no cracks and gaps in which bacteria can accumulate. Our handles are made of impact-resistant plastic.

The nickel-free blades are precision-ground, and our Classic, Functional Form, ReNew, Fiskars X littala as well as Fiskars X Moomin scissors are made of hardened Swedish Sandvik steel with a hardness of HRC 57. The scissors that have a screw enables easy adjustment of blade tension.

MAINTENANCE

Most of the handles on Fiskars Classic scissors are made of polybutylene terephthalate (PBT), a plastic that can be sterilised effectively using either gamma rays or an autoclave. If you use an autoclave, the temperature should not exceed 137°C. It is a good idea to keep the blades sharp by regular use of a Fiskars Clip-Sharp™. Fiskars scissors are generally dishwasher safe.

STORING

Some Fiskars scissors are sold in a storage cover that makes sure no one catches their fingers or hands on the points if the scissors are lying around or are in a drawer. The cover also helps protect the scissors against damage, and keeps them sharp longer.

Cutlery

All Fiskars cutlery is made of stainless steel. Despite the name, no steel of any type can be absolutely resistant to external influences. Stainless steel is a name for steel that is rust-resistant, and where any small particles of rust can easily be removed using steel cleaner.

CLEANING

New cutlery should always be washed before first time use. To keep Fiskars cutlery looking good for as long as possible, it is advisable to polish it with a regular steel cleaning product at least once a year.

Handwashing is recommended for Fiskars cutlery to keep the items in good condition. Cutlery should be dried carefully after washing. If cutlery is placed in the dishwasher, it should be rinsed beforehand. Once the dishwasher cycle is complete, the door should be opened to let the steam escape. To get the very best result, cutlery should be dried with a cloth once the dishwasher cycle is complete.

Small amounts of rust are sometimes present in dishwashers of all kinds, and these can spread around while the dishwasher is running. These rust spots can stem from the inside of the dishwasher itself, or from other items being washed. They may also have been left behind by previous washes. If rust spots do appear on your cutlery, you can remove them by using a regular steel cleaning product.

Cookware

Fiskars uses durable materials of high-quality and also invests in R&D in order to make the best possible cookware, every day.

ALUMINIUM, STAINLESS STEEL AND CAST IRON FOR THE BEST POTS AND PANS

As a core material for coated pans aluminium beats all others thanks to its phenomenal heat conductivity. Also the sides of the pan heat the food. Aluminium pans are easy to handle because aluminium is a light metal. It is also a soft material, which is why we coat the entire pan so it can withstand wear much better. Stainless steel is extremely durable, easy to care for and to clean. Stainless steel withstands very high temperatures and corrosive substances, such as acids. Only highly concentrated solutions of cooking salt and extremely strong acids can damage a stainless steel surface. Products with plastic fittings are oven safe up to 150 °C and products with stainless steel fittings up to 250 °C. Cast iron cookware conducts heat extremely well. The enamel protects the cookware from rusting. Even though the dish is incredibly durable, the enamel glaze can flake or peel if it is hit against hard objects.

COATINGS

The quality of the coating is essential and therefore Fiskars is constantly working to make coatings stronger and to further improving their non-stick properties. The Fiskars PTFE-coatings have excellent non-stick properties. The advantages of this coating include its hard-wearing nature and effective corrosion protection. For a longer life span, please use plastic and wooden utensils. Fiskars coatings do not contain per- and polyfluoroalkyl substances (PFOA or PFOS).

USE AND MAINTENANCE

Put some oil or a couple of tablespoons of water in the pan before starting to cook. Do not heat up an empty pan. Once the oil has browned or the water has evaporated, the pan is hot enough for frying. Fry on moderate heat. Do not add salt before the water is boiling, and do not store food in coated pans. Hot cookware should not be put in cold water as the temperature shock may cause the base to become uneven.

CLEANING

Wash the cookware before using it for the first time and clean the cookware immediately after use. All products are dishwasher safe. Washing coated aluminium and stainless steel cookware by hand will prolong their life span.

The new Norden cast iron & stainless steel cookware and frying pans should be hand washed only. Thoroughly dry the cast iron cookware after washing. This will prevent rust forming on the edges, as the edges are not protected by the enamel.
