Bathroom scale

ASB-461

DESCRIPTION:

1. Body
2. Display
3. Unit key
4. Batteries compartment
5. 1 pc. Battery 3V CR2032 (included)

IMPORTANT SAFEGUARDS

- Please read all instruction manuals before use and save it for future references.
- For home use only. Do not use for industrial or commercial purposes.
- Do not shock the scale with sudden loading or striking.
- Do not overload the scale.
- **CAUTION!** Slippery when wet.
- Do not attempt to repair, adjust or replace parts in the appliance. Repair the malfunctioning appliance in the nearest service center. If the product has been exposed to temperatures below 0°C for some time it should be kept at room temperature for at least 2 hours before turning it on.
- To ensure the safe usage of this appliance, it is important to note that it should not be used by individuals (including children) who have limited physical, sensory, or mental capabilities or lack sufficient life experience or knowledge, unless they have received proper supervision or instruction from someone responsible for their safety. It is crucial to supervise children to prevent them from engaging in play with the device.
- The manufacturer reserves the right to introduce minor changes into the product design without prior notice, unless such changes influence significantly the product safety, performance, and functions.

SPECIFICATIONS

- Max. capacity: 180 kg
- Graduation: 0.1 kg
- Power supply: CR2032 x 1 pcs.
- LCD Display
- Unit: kg, lb, st
- Automatic Zero Resetting
- Automatic Switch off

- Overload indication
- Low Battery indication

START TO USE

- Insert one CR2032 type battery, observing polarity, into a special compartment at the bottom of the scale. Close the compartment. The scale is ready to operate.
- By default, the scale is set to kilos «kg». There is a unit key on the rear panel of the scale for selecting stones «st» or pounds «lb» as units of measurement.
- Make sure that the scale stands on a flat, hard, horizontal surface. Do not place the scale on a carpet or any other soft surface.
- In order to determine the weight correctly, the scale should stay in one place. By moving the scale, you may place it on an uneven surface, which may affect the accuracy of the weight displayed.

WEIGHING

- In order to determine your weight correctly, you should weigh yourself at the same time during the day and before meals. Do not forget to undress and take off your shoes. It is recommended not to weigh yourself earlier than 2 hours after waking up.
- Step on the scale in order to turn it on.
- Wait a few seconds until the display shows "0.0".
- The display will be locked when you firmly stand on the scale.
- Step off the scale.

AUTOMATIC SWITCHING OFF

After weighing, the unloaded scale will automatically turn off in 10 seconds.

OVERLOAD INDICATOR

When the scale is overloaded, the display shows "Err".

BATTERY REPLACING

Replace the battery when the display shows "Lo".

MAINTENANCE AND CARE

- Wipe the scale with a soft cloth and cleaner, and then dry it.
- Do not use any organic solvents, aggressive chemicals, or abrasives.

STORAGE

- Complete all requirements of chapter **MAINTENANCE AND CARE**.
- Do not put anything on bathroom scale when not in use.
- Keep the scale in a dry, cool place.

FAULT DIAGNOSIS

Malfunction	Possible cause	Remedy
Scale does not switch on	No battery	Check the presence of battery. If there is no battery, install it.
The weight value is very different from the real value	Different unit of measurement is set	Check the unit switch and select the desired one.
«Lo» appears on the display	The battery needs to be replaced	Replace the battery
«EEEEEE» appears on the display	Scale is overloaded	Do not exceed the limit value of the measuring range of scales
In all other cases, please contact the service department!		

UTILIZATION

If a product has a symbol with a crossed-out wheeled bin, this means that the product complies with the European Directive 2012/19/EU.

Familiarize yourself with the local system for separate collection of electrical and electronic goods. Follow the local regulations.

Dispose of old devices separately from household waste. Proper disposal of your goods will prevent possible negative consequences for the environment and human health.
